Pretoria, Gauteng

PROFILE

Computer Science student (82% average) with hands-on experience building real-time security systems, cloud deployments, and backend-driven applications. AWS Cloud Practitioner and Google Cybersecurity certified. Strong foundation in Python, Java, SQL, and system-level debugging. Seeking entry-level IT, software development, or cybersecurity roles.

EDUCATION

BSc Computer Science — Regenesys University (2025 – Present) Current
Average: 82%

NSC (Matric) — Maragon Mooikloof (2024)

TECHNICAL SKILLS

Languages: Python, Java, SQL
Cloud: AWS (IAM, S3), Google Cloud Foundations
Cybersecurity: IDS, Log analysis, Threat detection, Risk Classification
Tools & Systems: Linux, Windows, Git, Android Studio, JSON, Git
Core Strengths: Debugging, log analysis, problem solving, teamwork

PROJECTS

Real-Time Intrusion Detection & Prevention System (Python)

<https://github.com/Taunku/real-time-intrusion-detection>

Python, JSON, Logging, Threading, Socket Programming

- Designed real-time log monitoring engine using sliding-window anomaly detection
- Built behavioural risk scoring to detect burst traffic, directory scanning, and sensitive endpoint probing
- Implemented automated IP blocking simulation
- Developed live SOC-style dashboard using Rich
- Logged structured alerts for auditing and incident tracking

Web Log Intrusion Detection & Vulnerability Scanner

<https://github.com/Taunku/VulnerabilityScanner>

Python, HTTP request, JSON, Logging, Git

- Developed rule-based intrusion detection with risk classification
- Implemented structured JSON reporting
- Built scanning logic to detect suspicious web traffic patterns

School Management System (Team Project)

<https://github.com/Rootsinc23/project001>

Java, OOP, SQL, Git

- Collaborated in backend development of administrative web system
- Implemented student registration and data management features
- Contributed to system organization and application logic

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- Google Cybersecurity Professional Certificate
